

# Bloom Flip Flops

I'm very excited to be able to share this pattern with you, it's a project that I've loved making and I hope that you do too.

Before we start, I want to mention a couple of important things. This is a design that I've created for you for free, so do share as you like, but please respect me as a designer and not claim it or resell it as your own. I wish I didn't have to write that sentence, but pattern stealing is a huge problem in our lovely little industry. You are more than welcome to sell the end results in your Etsy store or at your local craft fair or to order if you like; whatever your selling style is, but if you would like to create and sell yarn kits bundled with this design, please contact me for my permission first. And this design is definitely not for mass-production.

Ok, now with the awkward discussion out of the way, let's get to it.

## What You'll Need

---

3 skeins of Scheepjes Bloom in three colours (407, 414 and 419)

Scheepjes Flip Flops in your selected size. I made a 41/42 for myself. The sizes run small, so consider making the size up from your regular foot size.

5mm crochet hook

A tapestry needle to sew in your ends.

Cute scissors (one can never have cute enough scissors).

# Notes

---

I'm using US terms for this pattern, so if you're in the UK, bear in mind that my Single Crochet is your Double Crochet.

Gauge is not really important for this pattern, but do bear in mind I crochet tightly thanks to making so much amigurumi, so if you are a loose crocheter consider using a smaller hook.

For this project I also use the [Invisible Join](#) method, but you can use whatever method works for you.

Also, do weave in the ends as you go. If you don't, you'll get to the end of the project and be super frustrated because you won't be able to wear your awesome flip flops immediately!

For smaller sizes, consider skipping Round 7. The finished flip flops need to be tight as the yarn will give a little. If they grow too loose, simply undo the final round and shorten the chains.

One final note: I'm a leftie, so my photos are of left-handed work. If you're right-handed, just keep in mind when you're attaching your triangles to your soles – you'll need to do it back to front to my pics!

# Stitch Abbreviations

---

(Using US terminology)

CH (Chain)

SS (Slip Stitch)

SC (Single Crochet)

MR (Magic Ring)

INC (Increase – 2 SC in one stitch)

TR (Treble Crochet)

DC (Double Crochet)

HDC (Half Double Crochet)

# Flip Flop

1. Begin with pink, SC x 10 into a MR, join and cut the yarn, weaving in the ends.

2. Change to blue; attach the yarn anywhere around your first row and increase in each stitch around, giving you a total of 20 stitches. Join and cut the yarn, weaving in the ends.

3. Change to yellow, attach anywhere and INC, 1SC, INC, 1SC. Repeat this pattern all the way around, joining and cutting the yarn,

weaving in the ends.

4. Change to pink. Now we will make the triangle shape. Each side of the triangle will be the same. CH3 (counts as the first TR), DC, HDC, HDC, SC, SC, SC, HDC, DC. Into the next stitch we will make the corner by adding the following three steps into the next stitch. TR, CH1, TR (all into the same stitch), then repeat the DC, HDC, HDC, SC, SC, SC, HDC, HDC, DC and corner steps two more times, creating your triangle. Join and cut the yarn.

5. Change to blue. Attach anywhere around your triangle, SC to the corner, with 1SC, CH1, 1SC into each corner space, then SC in each stitch to the next corner, repeating

the action. Join and cut the yarn.

6. Change to yellow, repeating step 5.

7. Change to Pink, repeating step 5.

8. Now we will attach the triangle to the flip flop base. Change to Blue. Measure out a length of about 3 metres and cut the yarn. This needs to be done because we need to feed the yarn through the loop of the flip flop

and you can't pass the skein through.

Attach the yarn anywhere on the triangle and SC to the corner. Instead of chaining just once, we will chain 8.

Feed the chain (and all the yarn) through the **front** loop of the flip flop, SC into the CH space from the previous round. SC to the next corner, where this time we will CH 12, again passing the chain and the remaining yarn through the left (or right if you are left handed) loop, SC into the CH space from the previous round. Repeat this for the final corner and SC to where you attached the yarn, tie off and weave in the ends. Make sure your chains are tight to prevent too much stretching.

---

Now all that's left to do is try on your flip flops, take cute pics, and post them on [Instagram!](#)

I love it when you share your finished pieces, so please do follow me on [Facebook](#) and [Instagram](#), and when you post photos, don't forget to tag me! Oh, and add your projects to [Ravelry](#) too!
